👤 PROFILE

Highly skilled and dedicated malware analyst with 5 years of experience in incident responding, analyzing, detecting, and mitigating malware threats. Seeking a challenging position as a malware analyst to utilize my expertise in identifying and neutralizing complex malware attacks to ensure the security and integrity of computer systems.

📁 EMPLOYMENT HISTORY

Threat & Malware Analyst | Incident Response Team at Certego SRL, Modena, Italy
2021 — Present

- Engaged in analysis and response to IT incidents on Customer networks
- Conducted in-depth analysis of malware samples to identify their origins, functionality, and potential impact on systems.
- Reverse-engineered malicious code using tools such as IDA Pro and x64dbg to understand the behavior and implement countermeasures.
- Collaborated with incident response teams to investigate and respond to security incidents, providing expertise in malware analysis.
- Developed and maintained malware analysis reports, documenting findings and recommendations for mitigation.
- Stayed updated with the latest malware trends, vulnerabilities, and attack techniques to enhance the organization's security posture.
- Engaged in studying the threat landscape, to optimize the detection capabilities of the Certego PanOptikon platform

Threat Analyst at Netenrich Inc., Bangalore, India
2020 — 2021

- Engaged in attack surface monitoring and superficial penetration testing for multiple clients.
- Participated in vulnerability assessments and penetration tests to identify potential weaknesses and gaps in security controls.
- Assisted in the development and implementation of security policies, procedures, and controls to enhance the organization's overall security posture.
